What is gPanel[®]?

gPanel[®] by Promevo is an exclusive Google Workspace management and reporting solution.

The intuitive centralized user management and security interface delivers peace of mind with a robust suite of features.

Benefits for Our Clients

- Provides our customers time savings through Advanced User Administration and Admin Delegation, Automated Onboarding/Decommissioning Workflows
- Enhanced visibility through Unique Customizable Reporting
- Drives consistency in branding
- Operational efficiency gains through additional role delegation (Google Workspace Admins, Security Analysts, HR, Learning & Development, Marketing, First-line Managers)
- Superior Domain Security for their organization through granular security controls

What Our Customers are Saying

Its presentation of data across Google Workspace is better than native tooling. There are various tasks where it is just faster to get answers via gPanel.

I can get in, and get out quickly and know exactly where all the controls are.

It makes managing individual user data easier. Especially info that requires you to log in as the user like vacation and autoresponders.

What's New?

- [New Unsuspend Decommissioning Action](#)

We report on all of this on our release notes so make sure you're signed up for that!

There will be new features coming soon so stay tuned for our future Office Hour webinars!
